SKYY

What is *Life Welltech?*

*Wellbeing bio-technologies integrable into our
massage beds, now or later.*

Bio-technologies means technologies for life.

By integrating them, we transform *SKYY massage beds*
into advanced tools that enhance treatment
efficacy while offering significant health benefits.

Our goal is to enhance Client experience
and promote overall well-being.

RedHeat

Far Infrared Heating System
PATENTED ITALIAN TECHNOLOGY

More than just *heat*

RedHeat delivers deep, healing warmth through *Far Infrared Rays (FIR)*, transforming each treatment into a restorative experience.

By penetrating tissues, *FIR* boosts circulation, relieves muscle tension, supports detoxification and enhances *natural recovery*.

A treatment within a treatment, designed to elevate results with science-backed, measurable benefits.

Unlock the power of “*Rays of Life*” for enhanced wellness

Discover the extraordinary benefits of *Far Infrared Rays (FIR)* for enhanced wellness.

Our cutting-edge *RedHeat* technology integrates FIR into our massage bed mattresses, providing deep-penetrating warmth and superior therapeutical benefits.

Harnessing the science of *Far Infrared Rays* *

Step into the realm of advanced wellness with Far Infrared Rays, hailed as one of the most significant discoveries in international science.

These bio-energetic rays possess the remarkable ability to deeply penetrate skin layers, promoting optimal energy circulation without causing any tissue damage or discomfort.

The heat they generate is exceptionally natural, offering an unparalleled level of comfort.

*

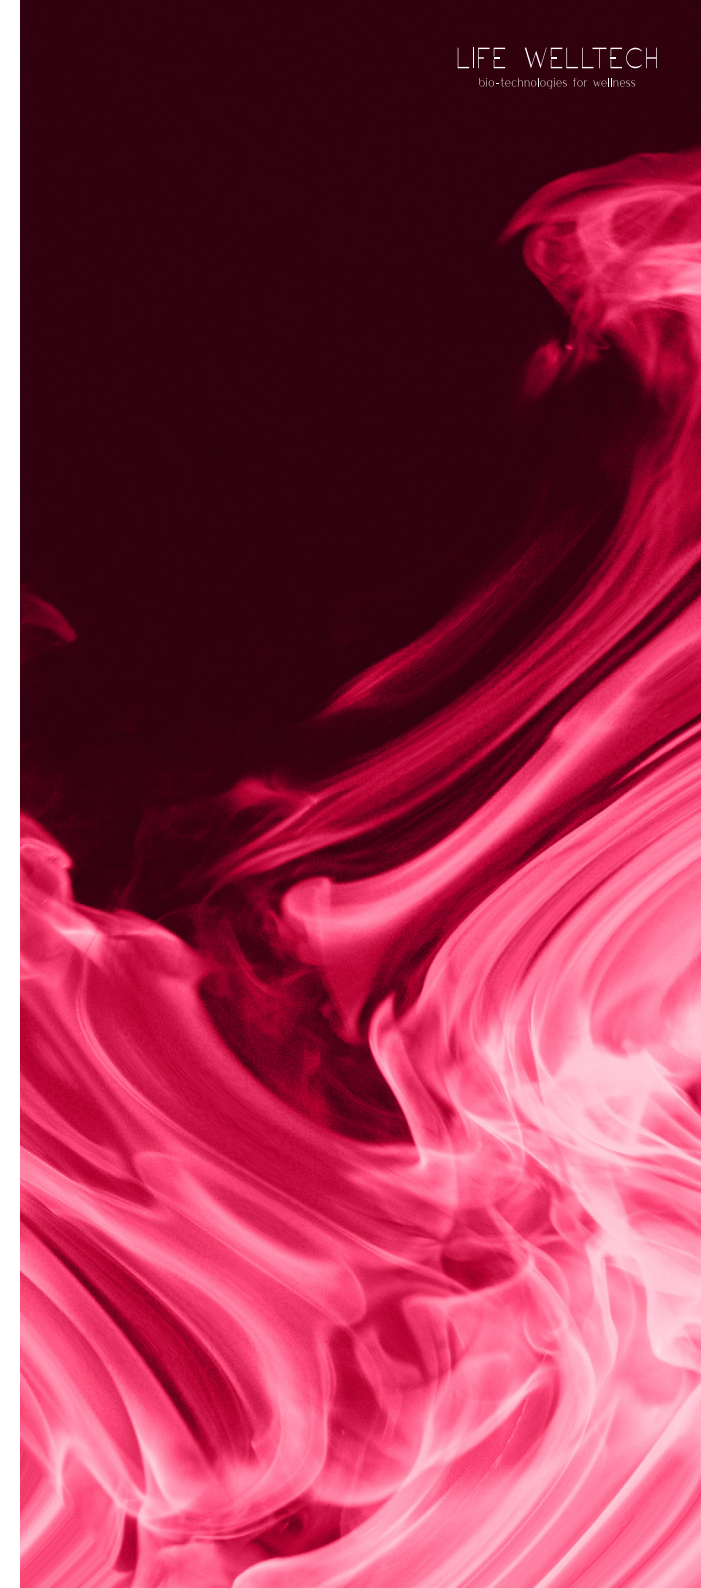

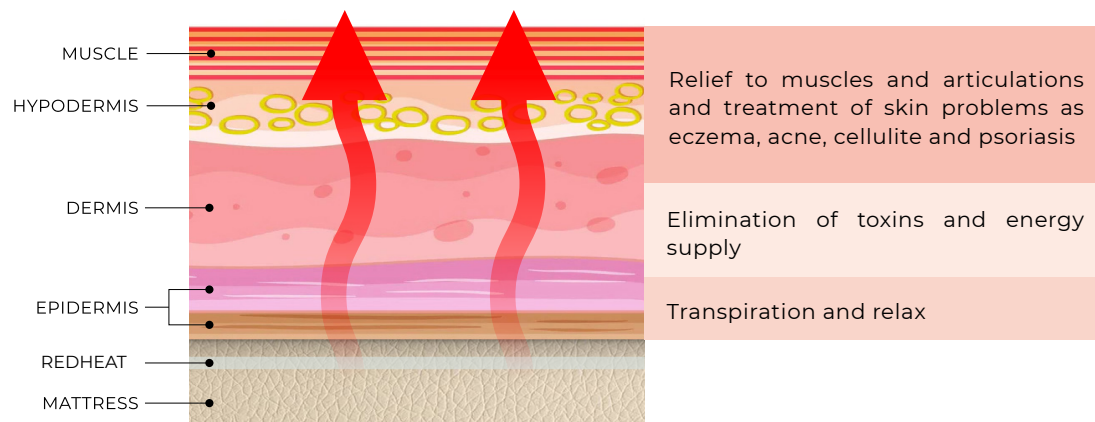

1. Dr Toshiko Yamakazi - “*The science of Far InfraRed Therapies*”. 2. Dr Masao Nakamura - Scientific dossier on successful results with IR therapy on: acne, arthritis, gastro-intestinal problems, insomnia, menopause and cervical pain. 3. Mc Graw-Hill, Encyclopedia of Science & Technology – Scientific report “*The use of IR heat to treat distortions, bursitis, peripheral vascular diseases, muscular pain and arthritis*”.

Unleash the *full potential*

Beyond mere heat, *Far Infrared Rays* awaken the body's innate vitality, fostering optimal energy flow and facilitating natural regeneration processes.

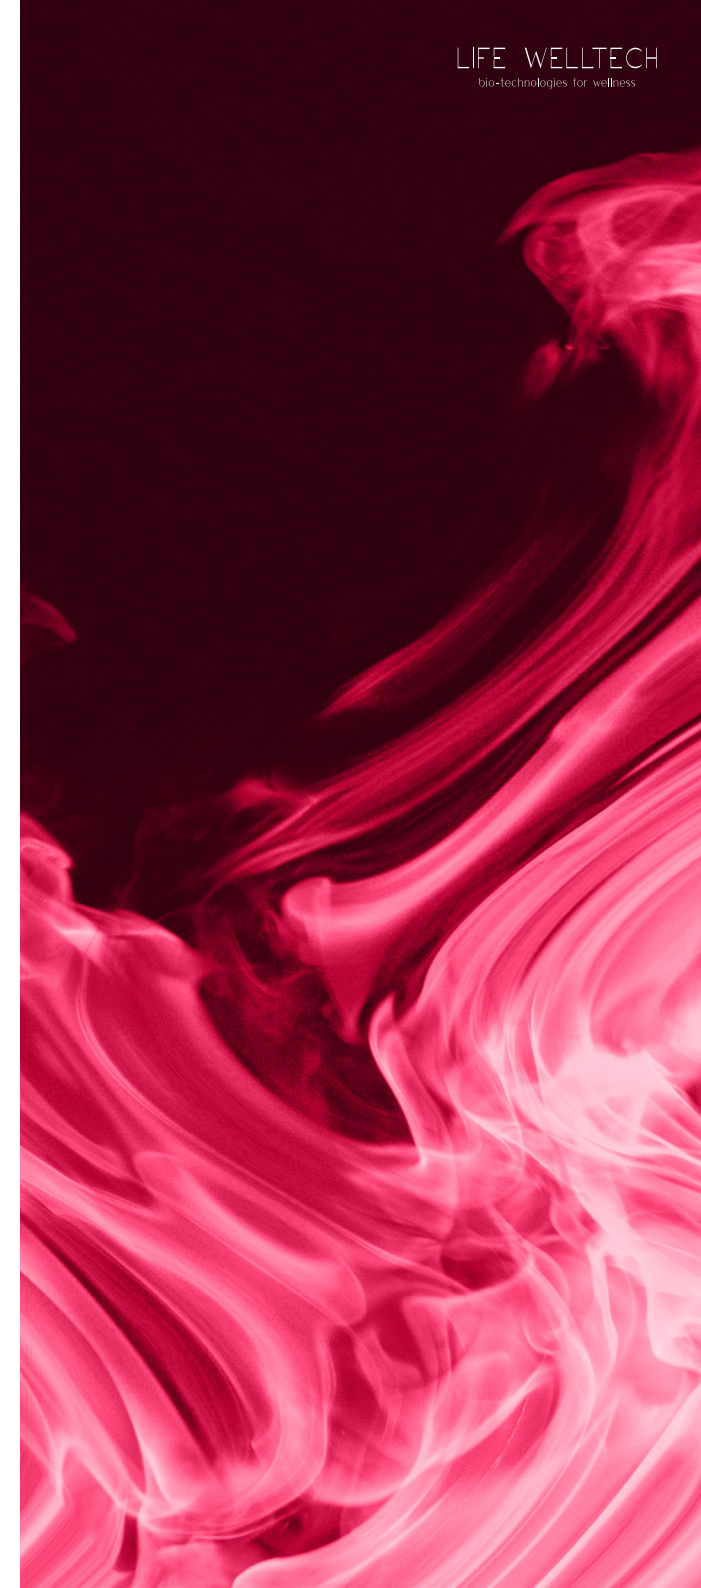

Experience the revitalizing effects as these rays gently stimulate the body, promoting overall wellness and leaving you feeling rejuvenated.

Far infrared action *into the skin*

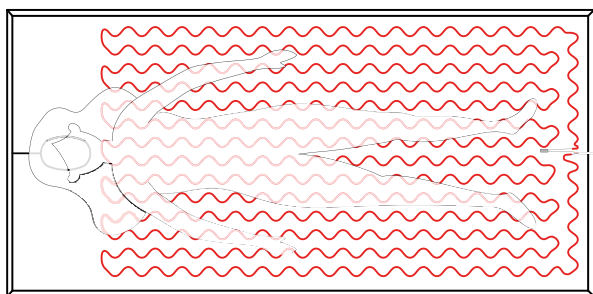

RedHeat benefits

- 01** **REGENERATING** Stimulation of blood, lymphatic and oxygenation circulation.
- 02** **ANTI-PAIN** Relief of muscle and joint pain, arthritis and swollen legs.
- 03** **PRO-METABOLISM** Stimulation of slimming and weight loss.
- 04** **DETOX** Elimination of toxins (smoking, poor diet, etc.) and heavy metals.
- 05** **IMMUNIZING** Strengthening of immune defenses.
- 06** **ENERGIZING** Cardiac performance stimulation, ideal for sedentary people.
- 07** **ANTI-STRESS** Immediate relaxation of all bodily tensions, sleep improvement.
- 08** **REHABILITATING** Increased extension of connective tissues, ideal for treating ligaments and tendons.

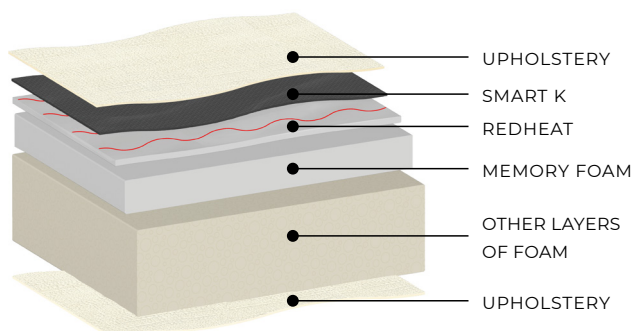

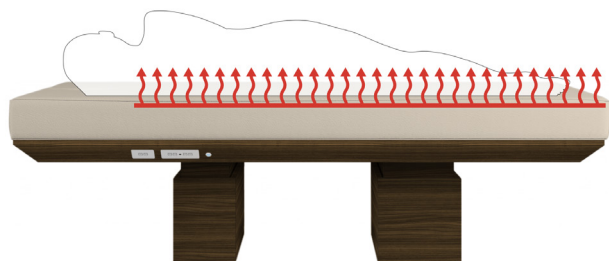

How it works

In our massage beds, *RedHeat* is embedded above the memory foam layer inside the mattress.

The heating system is controlled via a dedicated button located on the side of the plateau, ensuring precise and efficient operation.

TECHNICAL SPECIFICATIONS

Max Temperature	Voltage	Power
43 °C (109,4 °F)	24 Vdc	120 W

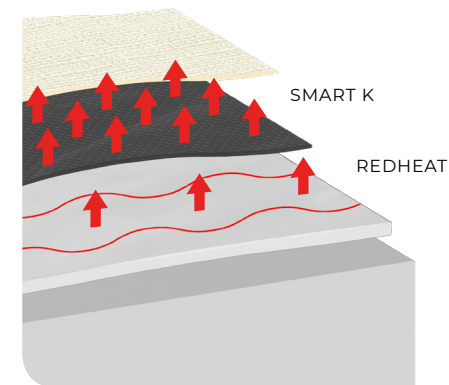

Smart K

Unleashing the power of
bio-ceramic

Amplify the advantages of Far Infrared

Bio-ceramic is a smart material made from natural elements (more than twenty metal oxides and rare earths) able to interact with FIR Far Infrared Rays.

Smart K is a remarkable sheet of bio-ceramic fabric designed to amplify the benefits of Far Infrared Rays. (When integrated into our mattress above the RedPulse layer, Smart K takes wellness to a whole new level.

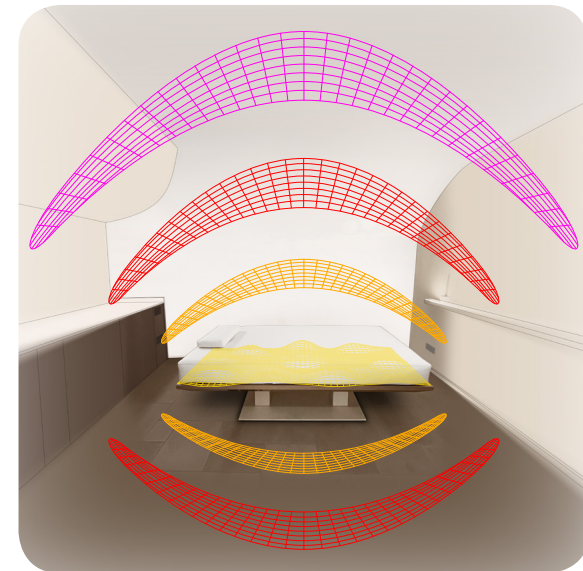

Smart K, acting as a reflective mirror, enhances and expands the effects of the Far Infrared Rays generated by our RedHeat.

360° SOUND EXPERIENCE

High-definition immersive
audio system
PATENTED ITALIAN TECHNOLOGY

*No headphones.
No speakers.
Just a **pure sound** trip.*

Unlike ordinary speakers, our integrated transducers transform the bed into an instrument of pure resonance.

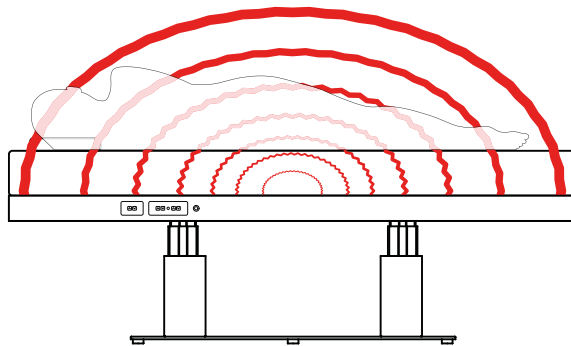

Planar wave diffusion ensures that frequencies travel uniformly through the body, creating an enveloping sound bath. The physiological volume compensator enhances mind comfort for deep relaxation.

360° Sound Experience is the ultimate immersive listening solution integrated in your massage bed.

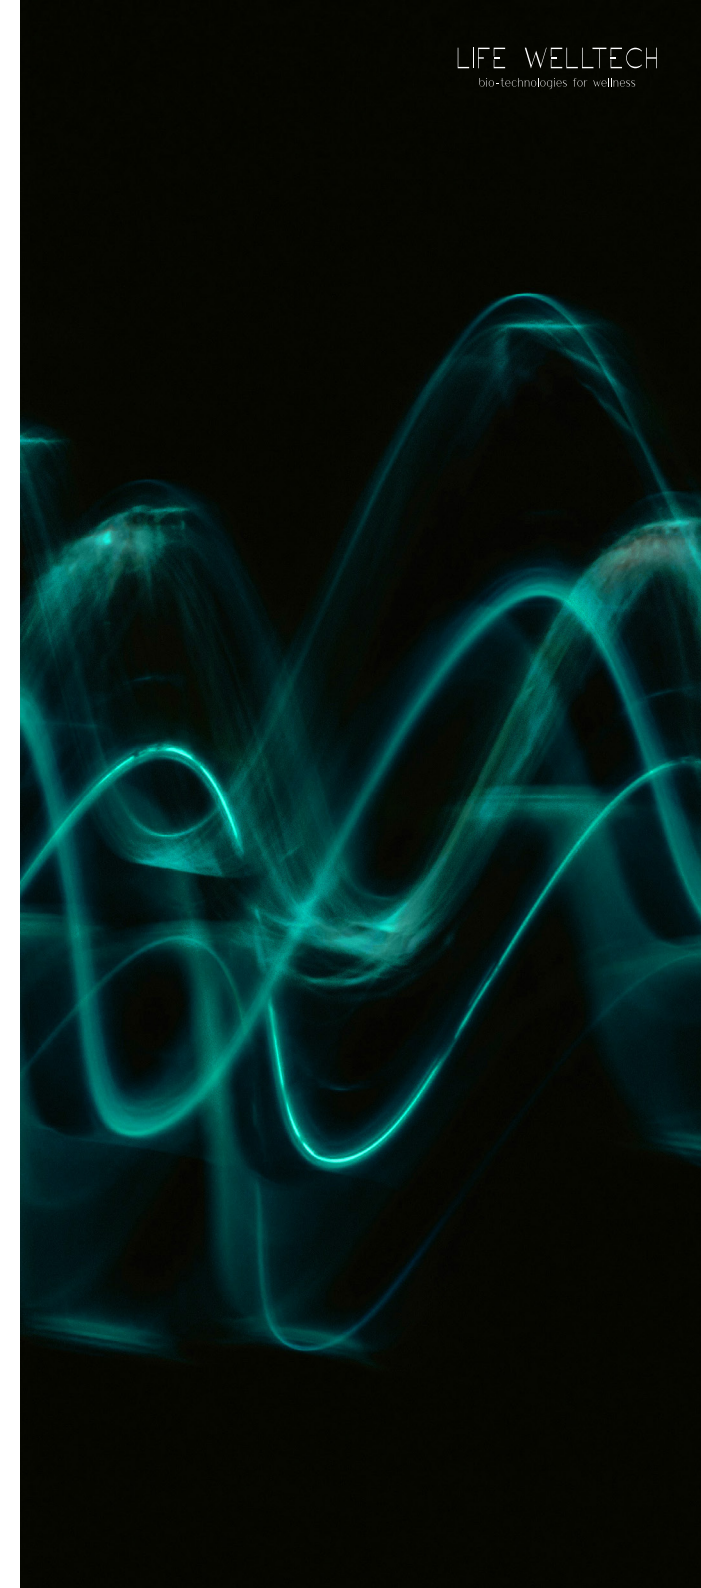

The integrated technology generates **high-definition sound produced by impulse speakers that create light vibrations**. These low frequency vibrations are diffused through the internal surface of the bed and **give an exceptional enveloping sensation to the body**. The cognitive connexion is global and fully awoken.

Client's mind and body are fully immersed into music and receive entirely all the sensations offered by our technology, without the discomfort coming from an external musical source (headphones, earphones, speakers).

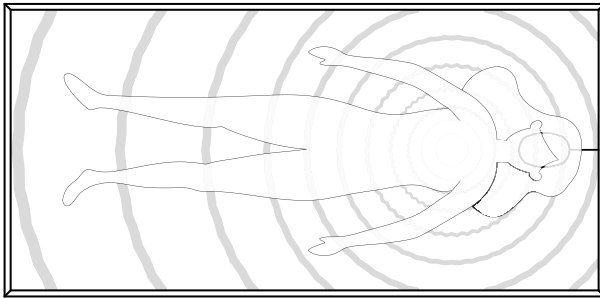

The ear is not focused on a specific sound source and does not attract the brain to an external sound that would pollute the Client's serenity. The peace is complete with a delightful 360° experience.

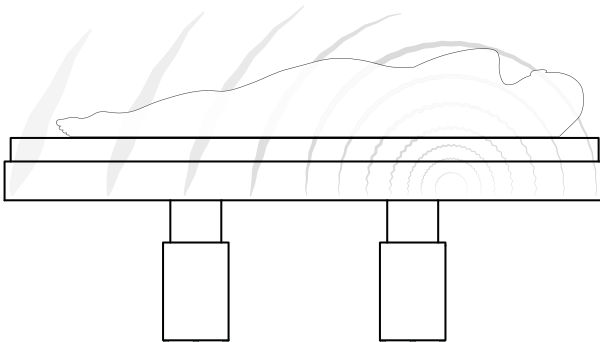

A wide range of frequencies from 40 Hz to 14 kHz allows a high quality of listening and a deep relaxation.

How it works

1: Connect a Bluetooth device to the bed and start your *playlist / track / music* streaming app

2: The exciters create low *frequency vibrations and sound travels through the bed*

3: The Client enjoys an *immersive, enveloping sound experience*
